

**PTTEP Australasia TIMOR SEA OPERATIONS**

**Information Release Statement  
Incident Information # 21**

***Date: 2 September 2009 TIME 1600***

Operational schedules have changed the departure times of the two vessels being fitted with high capacity pump and deluge equipment for the Montara well head platform.

The *Havila Harmony* is now due to depart Darwin at 7am (CST) tomorrow (Thursday 3 September) and is expected to arrive on site Friday.

The *Nor Captain* is now scheduled to depart late tomorrow (Thursday) and is expected on station early Saturday.

Subject to an ongoing safety evaluation, the high capacity pump deluge equipment on the two vessels will be used to spray the Montara well head platform and *West Atlas* rig.
