

**PTTEP Australasia TIMOR SEA OPERATIONS**

**Information Release Statement  
Incident Information # 28**

***Date: 9 September 2009 1045 WST***

A series of photographs has been circulating in online media which appear to show the Montara well head platform in the Timor Sea at the time of the successful evacuation of personnel from the *West Atlas* drilling rig following the incident on Friday, 21 August.

The pictures were not taken or issued by PTTEP.

PTTEP would like the person who took the photographs to contact the company, as he or she may have eye witness information which could assist with the post-incident evaluation, reporting and inquiry.

Media Contact            Errol Considine – 0419 912 832
